

Omnice ll Increases Presence in the Middle East with Strong Showing at Arab Health 2012 and Completion of Technical Training at its Dubai Office and Training Center

Opening of Dubai Office and Training Center in May 2011 Demonstrates Further Commitment to the Region

DUBAI, United Arab Emirates, Jan. 23, 2012 /PRNewswire/ -- [Omnice ll, Inc.](#) (NASDAQ: OMCL), a leading global provider of medication and supply management solutions and analytics software for healthcare facilities, will exhibit its state-of-the-art G4 technology at the Arab Health 2012 Congress and Exhibition, which is attended by 70,000 healthcare professionals. Coupled with the completion of its Middle East regional office and training center in Dubai for healthcare customers and business partners, Omnicell has firmly established its commitment to the region.

Omnice ll's Dubai center, the first of its kind by a leading medication and supply automation provider, was opened in May 2011. Since that time, several training sessions for students from six countries have been held.

"Because of our permanently-staffed Dubai office and training facility, Omnicell is well situated to provide state-of-the-art training for the leading hospitals across the region and ensure our customers are able to take advantage of the best available technologies for medication and supply automation. We conduct training using only our latest available technology, the G4 platform," said Gary Ervin, Omnicell vice president of international operations. "Omnice ll is committed to delivering our award-winning solutions, quality and customer service for our customers throughout the Middle East, tailored to meet local healthcare requirements. We have a consistent philosophy worldwide to provide only the best technology and customer support experience possible."

Omnice ll automation solutions are recognized with top honors by the leading independent rating agency, KLAS, based on extensive interviews of U.S. healthcare executives. For example, Omnicell has achieved the top KLAS distinction six years in a row for the OmniRx® automated medication system as well as "Best in KLAS" distinctions for its Pharmacy Automation Medication Carousels and the KLAS Category Leader award for its Anesthesia Workstation. In customer surveys, Omnicell has been consistently recognized for its innovation and long-term customer satisfaction.

Omnice ll's leading automation technologies will be on display during its third year of exhibiting at Arab Health at the Dubai International Convention & Exhibition Center, the region's premier healthcare exhibition, from January 23 to 26. Omnicell will feature its recently introduced G4 medication automation platform on a single unified medication database, the Savvy Mobile Medication System and the newly designed Anesthesia Workstation. Also featured is the new integrated Medication Label Printer, a unique Omnicell solution that supports accurate medication administration with patient-specific labels that are efficiently printed at the medication cabinet.

About Omnicell

Omnice ll, Inc. (NASDAQ: OMCL) is a leading provider of automated and business information solutions enabling hospitals and healthcare systems to streamline the medication administration process and manage costly medical supplies for increased operational efficiency and enhanced patient safety. Through seamless integration with a hospital's existing IT infrastructure, Omnicell solutions empower healthcare facilities to achieve comprehensive automation of medication and supply management from the arrival at the loading dock to the patient's bedside. Omnicell also provides healthcare facilities with business analytics software designed to improve medication diversion detection and regulatory compliance.

Since 1992, more than 2,500 hospital customers worldwide have relied on Omnicell's medication automation, supply chain, and hospital analytics solutions to increase patient safety, improve efficiency and address changing healthcare regulations while providing effective control of costs, charge capture for payer reimbursement and inventory management of medications and supplies.
