

AccuFlex Single Dose Automation

Flexible Patient-Specific and Prepack Automation for the LTC Pharmacy

The Omnicell AccuFlex® accurately fills and labels single-dose packaging based on incoming prescriptions or prepack orders, improving operational efficiency and reducing inventory and labor costs. This automation fills many types of reclaimable and non-reclaimable single-dose medication packaging of any quantity, including calendar filling to match the card numbering to the day of the month, or on-demand cycle filling.

Solution Benefits

- Fills and labels any quantity based on calendar, cycle, or prepack
- Throughput of 3.5 filled, sealed, and labeled cards per minute
- High level of accuracy increases pharmacy productivity and reduces rework
- Can enable PV2 exemption to maximize workflow and labor efficiency
- Patient-specific blister card filling and labeling

The Omnicell AccuFlex high-speed packaging technology comes with software, reports, formulary management, inventory management, custom labeling and foil formatting, installation, and training.

Features

- Faced with your Pharmacy Information System
- Automated barcode verification and tracking
- Cassette inventory tracking
- Detailed and custom reports
- Multiple workstation capability removes bottlenecks when queuing jobs and managing cassettes

AccuFlex
