

## Omnnicell End of Service/Life Announcement

Updated:  
April 2018

### Reminders:

#### **G3 and older medication automation and supply platform which runs Microsoft XP Embedded System**

The Omnicell G3 platform runs on Windows XP. On April 8, 2014, Microsoft ended extended support for Windows XP. Further, XP is not a HIPAA compliant OS.

Omnnicell stopped providing service for the G3 platform after December 31, 2016. We have communicated to customers the XP End of Life and the G3 end of service dates over the past four years through emails and letters.

#### **Microsoft support for Windows Server 2008 extended through January 14, 2020.**

Microsoft extended support for the Windows Server 2008 through January 14, 2020. After this date, assisted support from Microsoft will no longer be available, including updates and patches. For more about migration information please review the Microsoft Lifecycle website:

<https://support.microsoft.com/en-us/lifecycle>
